

NEWS FROM HAWAII.

Queen Lili Expected to Be Restored to the Throne Nov. 8.

Said to Have Held a Jubilee the Preceding Sunday.

Up to Tuesday Morning Minister Willis Had Told Nothing.

SAN FRANCISCO, Nov. 12.—The steamer China arrived early this morning from Yokohama and Hong Kong via Honolulu. Up to the time the steamer left Honolulu, Minister Willis had not made known his instructions from President Cleveland, consequently there was no disorder of any kind.

The new minister arrived early on the morning of Nov. 4, and went directly to Blount's headquarters at the Hawaiian Hotel. He refused to see reporters until Monday, as he was ill from the effects of travel.

On Sunday and Monday the minister remained at the hotel resting, while the people of Honolulu wondered what he was going to do.

When Minister Willis finally submitted to an interview, the remarks set a doubt that he is duly accredited to the Provisional Government. He said:

"I am very sorry I can say nothing on the political question at the present time. In the course of the morning I intend to address a note to your Minister of Foreign Affairs asking when it will suit the convenience of President Dole to receive my credentials from the United States Government. At the same time I shall send him a manuscript copy of the remarks I intend to deliver on the occasion of my presentation to him."

"This is my first experiment in diplomatic matters, but I understand such to be the custom. Whenever the President notifies me of his readiness to receive me, I shall be on hand. Under the circumstances, it would be an act of discourtesy to the Hawaiian Government to discuss the political situation at the present time."

President Dole promptly replied to Minister Willis's note, and it was arranged that the United States Envoy should present his credentials to the Provisional Government at 11 o'clock Tuesday morning, Nov. 7, on that morning Minister Willis was again interviewed, and again declined to state whether he would do more than present his credentials on the occasion of this first meeting with the representatives of the Provisional Government.

The China put to sea between 11 o'clock and noon Tuesday morning.

Late Sunday night, Nov. 6, there was a large gathering at the house of Mr. Widemann, one of the queen's supporters. The gathering was attended solely by men in sympathy with the cause of ex-Queen Liliokalani.

The ex-queen had passed word around among her supporters that she was to be restored to the throne Wednesday, Nov. 8, the day following the departure of the China for San Francisco. It was reported that she was gathering at Mr. Widemann's house was of the nature of a jubilee.

When Admiral Irwin arrived at Honolulu, Monday, Nov. 6, on the China, accompanied by Lieut. Adams and Lieut. Parmenter, the gathering was attended on board the Philadelphia, and was being engaged on board until Tuesday morning.

Admiral Skerrett, who was relieved by

Admiral Irwin, and Lieutenants Wilson and Fox, also relieved, took their farewell of President Dole and the provisional cabinet on the morning of Wednesday, Nov. 7. Admiral Skerrett delivered a short and colorful address, and President Dole responded in kind. "America," as the Admiral's party passed in on that occasion.

President Dole, in his speech, said he had hoped Admiral Skerrett would remain until Hawaiian affairs were settled, as the Admiral had been in Honolulu during so much of the recent trouble. When the naval officers left the building, the band played "The Stars and Stripes."

FEARS NO BLOODSHED IN HAWAII

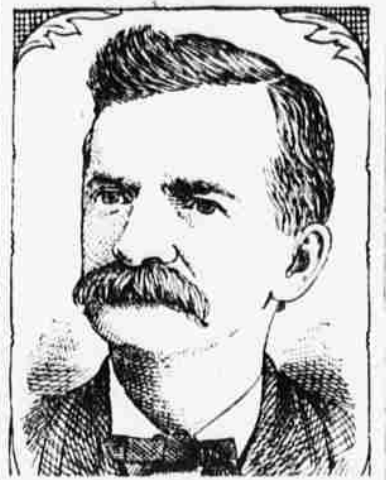

Queen Lili's Former Secretary on the Situation.

DENVER, Nov. 12.—F. M. English, ex-Secretary to Queen Liliokalani of Hawaii, who has been living in Denver since she was deposed, insists that her restoration would be justice to a much-abused sovereign.

Mr. English says that the facts set forth in Secretary Sherman's report are absolutely correct, and expresses surprise that there should have been so much delay in the case of the queen, who arrived at the State Department as for war and bloodshed, he laughs at the idea.

A Duty to The Public

AN ESTEMED 'CLERGYMAN TELLS HIS EXPERIENCE

Rev. C. W. Chapman

The following comes voluntarily from a much loved clergyman:

"Church Creek, Md., April 15, 1893.

"C. I. Hook & Co., Lowell, Mass.

"I feel it a duty to the public to send this certificate. I saw in a Philadelphia paper a letter from a man who had suffered from

Mr. A. J. Rheumatism

and had been restored by the use of Hood's Sarsaparilla. I had the grip in the winter of '91 and '92 so severely that it deprived me of the use of my arms, so that my wife had to dress and undress me, and when I was better I had to sleep in my clothes. I tried five doctors and not one accomplished any

thing. Then I saw the letter alluded to and I determined to try Hood's. Before I had

used one bottle I had the use of my arms

thank God. These are facts and can be verified by those who were present. I am pastor of the W. M. Church, Church Creek, Md.

C. W. CHAPMAN.

Hood's Pills are the best after-dinner pills, assist digestion, cure headache, etc. per box.

YARROW TORPEDO BOAT HERE.

Arrived from England on Steamship Mohawk To-Day.

Work on El Cid is Now Nearing Completion.

The much-talked-of Yarrow torpedo boat, which will be one of four ordered on the docks of El Cid and Britannia when they start for Brazil, arrived today on board the steamer Mohawk from London.

The Mohawk reached Quarantine shortly after 10 o'clock and dropped anchor there.

The English contribution to Peixoto's torpedo fleet consisted of the upper forward deck between the fore and main masts.

The Yarrow boat will be put into the water today or tomorrow and towed to the foot of East Ninth street, where she will be transferred to her place on board the Britannia when the proper time comes.

The foot of East Ninth street is as busy a place as may be found in town today. The work of preparing El Cid and Britannia for their South American expedition is being carried on with all possible speed.

As the time draws near for the vessel to depart the crowds of sightseers which daily visit the Morgan Iron Works' dock increase in numbers, and the policemen on duty there have a lively time in keeping the dock clear, so that the army of mechanics will not be hindered in their work.

Today the most important work done was the building of the cradles on which the torpedo boats, Peixoto and Jarry, will rest while on El Cid's deck. These will be placed on each side of the vessel amidships. A space has been cleared for them, but they cannot be taken on board until the big thirty-ton davits, which are being especially constructed by the Morgan Iron Works, are set in place.

There is a mountain of work to be cleared away before El Cid can sail. President Weir, of the Morgan Iron Works, said today that it would be impossible for El Cid to get away from her dock before next Thursday.

She would then be taken over to Brooklyn and her coal bunkers filled up with 3,500 tons of coal, which will be stored along her sides amidships, so as to protect her machinery as much as possible.

The 30 tons of coal taken on board since she has been at the Morgan Iron Works dock was only to expedite matters a little.

Ship carpenters are at work today building the heavy timber backing for the cradles. The timbers are 8x12-inch yellow pine and will be thought, together with the coal form a very fair protection to El Cid's engines.

Only anthracite coal will be used on board vessels of the fleet. This is to do away with the danger of spontaneous combustion, which sometimes takes place in the bunkers of a ship where bituminous coal is used. With so much explosive material on board this was thought to be a wise precaution.

It will take at least five days after El Cid's home to get the Britannia ready for sea. The latter vessel has had no arms put aboard yet, and all the efforts of the workmen seem bent on finishing up with El Cid.

President Weir says that work on the latter's decks all day long, preserves strict silence with the vessel's movements, but he is ignorant of what is going on around him.

Today he issued orders that strangers should not be allowed to get past the

head of the gangplank. The officer on duty has orders to enforce this rule on pain of instant dismissal.

On board the big derrick float alongside El Cid's dock there are a dozen cases of arms, which will be stowed away in El Cid's compartments.

These are the last of the big brought over by the French, River Touraine. Part of the non-perishable provisions are already stowed away in El Cid's compartments.

There was not quite such a rush today among those who contemplate shipping on El Cid. The report that the ship's fever season will be along on the latitude of Rio, has somewhat cooled their ardor to become naval heroes.

One of El Cid's officers said today to an "Evening World" reporter:

"Yellow Jack is the worst enemy we shall have to meet down there. It is no way of knowing when the disease is coming after you, and you can shoot it full of holes with dynamite guns."

These additional young Americans who have been accustomed will find themselves that fact to a twenty-pound man before they are in Rio harbor ten days.

Minister Mendonça had not visited El Cid up to 11 o'clock this morning. His work, which he looked over yesterday, was expected early, but did not put in an appearance.

It may be that Minister Mendonça will return to Washington without inspecting the work. His visit, says Charles E. Flint, is not in such matters is said to be impractical.

There are many details to be decided upon before the fleet leaves this port, and experts who viewed the progress of the work today expressed themselves as doubtful whether either of the vessels would be able to get away before next week.

Charles E. Flint visited the Morgan Iron Works dock this afternoon. With him was one of the surgeons who will go to Brazil.

Mr. Flint expected to meet Minister Mendonça on board El Cid and together they were to inspect the progress of the work.

WATCHING THE ANARCHISTS.

Special Guards to Be Kept on European Frontiers.

Search for French Suspects—General News by Cable.

(By Associated Press.)

PARIS, Nov. 12.—In consequence of the information given by the Spanish Ambassador to the French Minister of Foreign Affairs, that the Anarchists of France were assisting the Spanish Government to escape, the French Government has sent three special Commissioners of Police to the Spanish frontier with instructions to take every precaution possible to prevent Anarchists crossing.

Every suspected person entering France will be closely questioned and detained until the arrival of detectives from Paris, who will be summoned the moment a suspected person fails to answer satisfactorily all the questions put to him.

It is also understood that the German, Austrian and Italian Governments have sent additional instructions to their frontier police with the view of preventing the passage across the frontier of people suspected of being connected with the Anarchists' groups.

Further and more stringent passport regulations are contemplated, and a quiet search is being made by the po-

LAOS TRIBESMEN KILLED.

French Shoot Them Down in Siam for Refusing to Work.

(By Associated Press.)

LONDON, Nov. 12.—The correspondent of the Times at Bangkok says the French, in trying the free Curves system of road-making, in their newly acquired territory on the left bank of the Mekong River, have shot down the Laos tribesmen, who refused to work at Tung-cheng. This has had the effect of causing great irritation among the inhabitants.

The report that the entire Hill country of Tonkin is in full revolt is confirmed. The French forces there are impotent and confined to their posts. The native soldiery are demoralized and rebellious, and the railway and road works have had to be abandoned.

MORE TROOPS FOR MELILLA.

Spanish Forces Now Number 22,000—Fighting Resumed.

(By Associated Press.)

LONDON, Nov. 12.—The Madrid correspondent of the Standard says that owing to the friendly attitude of the Sultan and the popular military enthusiasm of the people, the newspapers of Madrid are urging the Spanish Government to punish the rebellious tribes in Morocco and to commence the erection of forts before the Sultan's troops reach the Rif country, as otherwise Spanish honor will be unsatisfactory.

Additional troops were despatched yesterday to the scene of the trouble. They
